1931 Model A Roadster

***President's Note
December 24, 2015***

Ho Ho Ho, Merry Christmas and Happy New Year to everyone. As I write these notes at 5:30 AM the snow is falling in big wet flakes and the ground is turning white, what a beautiful scene for a very special day. We will enjoy our immediate family this morning with a special breakfast and gift sharing, then this afternoon the Lane family will meet at the Museum for dinner and more gifts. There is so much excitement and sharing thru the season. We need to pause and be thankful for all we enjoy and wish everyone in the world could enjoy the peace and harmony we have.

Community Service

Food Sorting at FISH

"Twas just before Christmas
And out came the call
The Food Bank needs help!
Come one and come all

Phone's started ringing
A plan was devised
An address to meet
A time to arrive

Sixteen in number
That's thirty-two hands
They folded the boxes
And stacked all the cans

Three hours later
The work was all done
They met for some lunch
And continued the fun

The Food Bank was grateful
For the help they received
All of the food
Will reach those in need

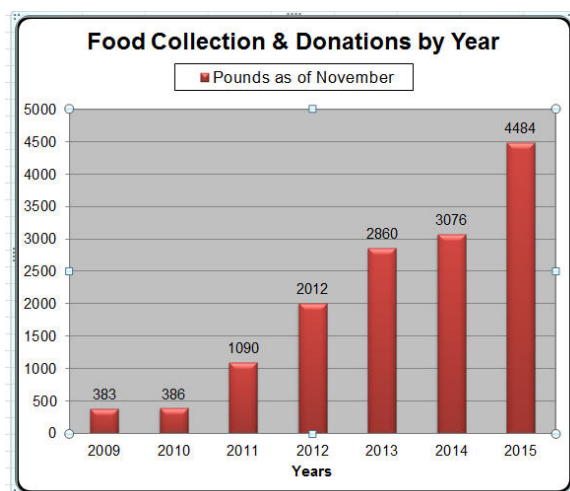

And Santa was proud
That we answered the call
And sends Season's Greetings
To one and to all!

Santa's helpers were: Jack & Pat Dusenberry, Roger Green. Ken Holtmann, Bob & Carma Huset, Don & Dolores LaBarre, Linda Neilsen, Bob & Sherry Rusunen, Tom Ryan, Gary & Joyce Swartz and Leonard & Linda Willey.

Monthly Food Donations

Joyce Schwartz announced that 134#'s of food was collected for Nov. bringing our year's total to 4618#'s!! That is more than 2 tons!

Re-living a Memory

Our club received the following request from Paul Ocker: "My father is turning 75 the end of November and one of his favorite childhood memories was riding in a rumble seat in a friend of his mother's Model A. If there is anyone in the club who would be able to take my dad for a ride in a Model A for his birthday on November 21 in the Battle Ground Area, rumble seat preferred but possible weather dependent. If someone in your club might be interested in helping me provide this gift for my father, please contact me". Many thanks, Paul Ocker.

Since I live in the Battle Ground area and own a coupe with a rumble seat, I offered to help Paul with this special gift for his father.

On a cold November morning I arrived at Paul's home. In his front yard was over a dozen family members and friends, awaiting the arrival of the Model A. Since Paul's father, Colin, had no idea of the special gift he stood there with joy and appreciation written all over his face.

Bundled up in a coat, scarves and a blanket, Colin stepped into the rumble seat and off we went for a ride in the country.

On our way home I pulled over and offered to let Colin drive the Model A. Once again, with a big smile on his face, Colin took the wheel and down the road we went.

Paul's family and friends were very appreciative of my willingness to provide this special gift. It made me feel good to help Colin relive a favorite memory for his birthday.

Gary Swartz

Headline News:

A new discovery that will change history throughout the whole world was made this past Christmas season. Top notch detectives applied the latest investigative techniques to make this finding. These detectives (who are experts in hoof technology and barbed wire taps) cracked the case.

The team of investigators that uncovered this story was comprised of the best undercover detectives around the world dealing with fallacies. The delusion that Santa Claus delivers gifts to the world using a small red sleigh powered by eight tiny reindeer is totally amiss. This top notched detective team found out that the sleigh is actually a custom built 20 horse powered Model "A" Speedster, built in his shop located somewhere near the North Pole.

The rumor that Santa called out each reindeer by name has been attributed to a stuffy chauffer driving one of them new big eight cylinder models. The fact is, when Santa went on his midnight run he called out to his faithful steed, "one, two, four, three". Vintage drivers know that "one, two, four, three" is the firing order of the "banger" used by the jolly little fat man.

In order to verify the discovery I have enclosed photographic evidence. This photo was taken by a nonpartisan photographer and proves without a doubt that the findings of the investigation are to be most certainly true. Said photographer also claims to have heard, "Ahooooga", just as Santa departed for his long journey into the night.

After extended research and snooping through Santa's score book we found out that some of the men in the Volcano "A's" club received a small lump of coal and walnut shells in their stockings this year. Maybe if they try to be good, their gifts might improve by next Christmas.

Your scrupulous, sneaky under cover reporter. Otto Mobile

Technical Information

Gasoline System More Efficient Because it is Simpler

Terne plate steel one-piece tank.

Gravity feed eliminates complicated vacuum system; minimum piping.

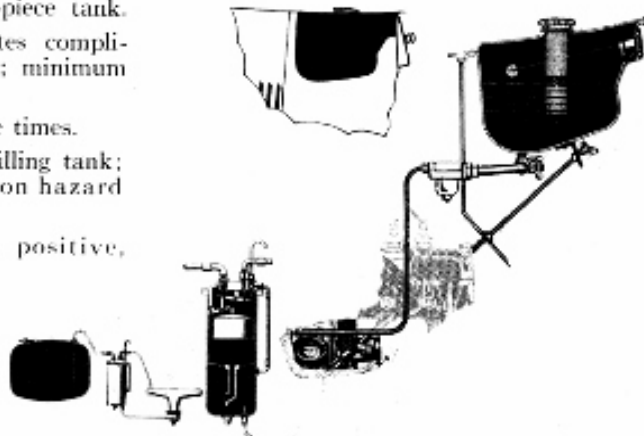

Gasoline strained three times.

No fire hazard when filling tank; rear end tank collision hazard is eliminated.

Gravity feed—simple, positive, safe.

Easily adjusted.

Location permits positive gage on the instrument panel.

Splash, Gravity, and Pump Oil System

Combination of gravity feed from reservoir and splash by connecting rod dippers.

Simple; reliable.

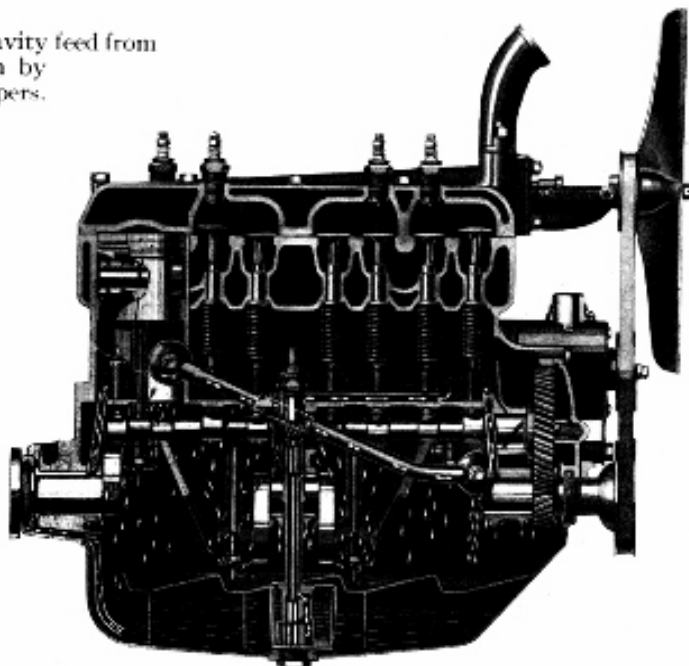

High vacuum of pump; would pump gasoline as well as heavy oil.

No small feed pipes.

No oil gauge needed.

All oil screened.

Minimum oil dissipation.

THE COUNTRY GENTLEMAN

February, 1931

THE NEW THREE-WINDOW FORD SEDAN

IN CITY, town and country, the new Ford is helping to shorten the miles and extend the limits of opportunity for millions of people.

It brings the open fields closer to the city and removes the isolation of rural districts. Daily it carries great numbers of men to work and home again, takes children safely to school and lightens the duties of women everywhere. Thousands of salesmen use it to cover larger territories and thereby render better service to their customers and the companies for which they

The Ford is The Universal Car

work. Where heavy storms break down the wires, the Ford fights its way through mud and snow and enables linemen to make quick repairs, so that the business of the nation may go on. While you sleep, the Ford

delivers the necessities of life to countless homes, and speeds a physician on a hurried call. Along darkened highways, policemen use its alert speed and reliability for greater protection to widening areas.

Wherever there is movement of men and materials, you will find the new Ford is an accepted part of the program of the day because of its low first cost, good performance and economy of operation. You may purchase it on convenient, economical terms through the Authorized Ford Finance Plans of the Universal Credit Company.

The Biggest FORD Year
Means a TREMENDOUS Year for

DO-RAY

Cowl and Driving Lamps

What Will Your Share of These
Profits Be?

To show Do-Ray Cowl Lamps is to sell them—and every set installed brings you further sales. Do-Ray Lamps are the most profitable accessory you can handle for the Ford Model A—and the most satisfactory.

Cowl Lamps With Bands

Lamps are of full acorn design, matching headlights, perfectly. Brass construction, glare-proof lens, and rust-proof in every particular. Simple installation. List price includes everything necessary for complete installation including 3-way switch for correct wiring with every pair.

Cowl Lamps Without Bands

These lamps are identical with those described above except they are to be mounted without bands. See illustration and list price at right.

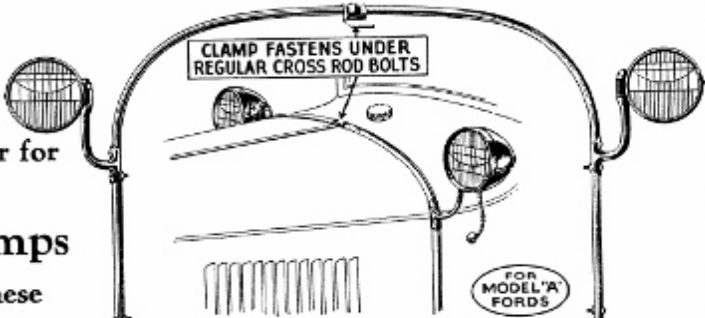

Do-Ray Driving Lamp

This is a beautiful, powerful, efficient driving lamp which throws a wide beam of light showing both sides of the road and dangerous curves. Bolts and nuts rust proofed.

Do-Ray 3-Way Switch

Do-Ray 3-Way Switch for cowl lamp and similar installations. Unusually fine construction. List price 50c each. Dealer discounts 40% in dozen lots.

MAFCA President's Page - Garth Shreading - December 2015

Happy Holiday Season

It is hard to believe another year has flown by, 2015 seems to have just started and now I find myself writing my last President's column.

What a great year 2015 while at the same time a sad year. The year began last December with our National Awards Banquet in Little Rock, AR hosted by the 50th Anniversary A's. That was followed by a spectacular national tour in Maine, Lobsters and Lighthouses sponsored by the Pine Tree A's. As I write this I am preparing to leave for Medford, OR for the 2015 National Awards Banquet which is being hosted by the Rouge Valley A's, Henry's Lady and Sis-Q A's chapters. Each chapter and the members who donated their time should be proud of the service they did. All have

contributed to a great year.

On a sad note we started 2015 with Jerry Wilhelm on the board but Jerry became ill and had to resign because of his health. This was followed by the passing of Jill Sullins. Both Jill and Jerry brought years of experience and knowledge and MAFCA is indebted to their service. We also lost a bit of history with the passing of Jim Ryner, one of MAFCA's early pioneers.

Each year, the club grows a little older and somewhat slower but so far we have done a pretty good job maintaining our membership numbers. The biggest challenge ahead will be continuing to maintain a healthy and thriving club. Many chapters are flourishing, some are holding on and others aren't doing very well. Our challenge is to find ways to reach the new Model A'ers, helping them to make their choice to be part of us. A couple things I have noticed about growing chapters are they offer many activities and events and spend considerable effort on their newsletters. I encourage all chapters to offer at least one monthly activity besides the regular meeting and be creative when it comes to the newsletter. When holding a meeting make it relevant, have classes and seminars but mostly make it fun.

In closing I want to thank the office staff, Sandra, Brenda and Juanita for all you do. The three of you make our job as directors much easier. Our editor, Jim Spawn and webmaster, Rick Black, thank you. I know your jobs are not easy and you do the hobby proud. To the Judging Standards Committee, The Restorers Class Committee, Era Fashion Committee, the sitting Publications Committee and Sherry Winkenhofers, our A World editor, all should be proud of the work you do, thank you.

Have a great Holiday Season

[Garth Shreading](#)

2015 MAFCA President

Information

The **Model A Ford Club of America, Inc. (MAFCA)** is a California non-profit corporation and a national historical society dedicated to the restoration and preservation of Model A Ford vehicles as manufactured from 1928 through 1931.

MAFCA's members are dedicated to the restoration, preservation, and enjoyment of Ford vehicles of that era. MAFCA is the largest club in the world dedicated to one make of automobile. Volcano A members are urged to join the Model A Ford Club of America, Inc. Visit the MAFCA website for a membership application. Dues are \$40 yearly and include a subscription to [The Restorer](#).

MAFFI Membership Application Form

Over eighty years ago, Henry Ford created his legendary Model A Ford, now an icon of Americana representing the transition from flappers to breadlines as the depression rolled across the continent. You can help to preserve Henry's Lady, the Model A Ford, and the dynamic era of 1927 through 1931 by joining the Model A Ford Foundation. MAFFI is dedicated to the preservation of historical information and memorabilia of this time of change in America. Your membership donation is tax deductible under the Internal Revenue Service rule 501 (c)3 and will help us with our many projects and worthwhile goals such as the Ford Parts Project and the building of research centers in many locations. Exciting new projects are on the horizon and you can be a part of them!

A Catching Pennzoil Dealer Advertising Service Panel

Eighty-five years ago the way commercial trucks were dealt with was much different from today. In current times Pennzoil would probably purchase a fleet of vans made by one of the big three, add vinyl wraps, the needed equipment and the trucks would be out on the street in no time.

In 1930 when this set of publicity mages was taken, the Pennzoil distributor in the Los Angeles, CA, area went a bit upscale and purchased Studebaker Six truck chassis' for its sign service fleet. It is not known if the panel truck body was built by the auto and truck maker or if it contracted with one of the many commercial body builders in the LA area for this classy-looking unit.

The service body features a pair of reverse-painted glass Pennzoil panels, a two-tone paint job, double whitewalls, and accessory bumpers. The back of the truck contains the tools of the trade needed for installing and servicing signs at Pennzoil dealers.
